1. During the individual session, we would like you to assess the potential of the course and arrive to the most possible visualization how you may imagine the working version of DUCK in your organization:
  - a. choice of delivery mode
  - b. choice of example type (Vocational, HE, AE)
  - c. choice of specific organization of the course, e.g. part of this or that course as separate module, or non-compulsory class, or independent on-line course for extra credits etc.
  - d. What languages would you use?
  - e. What target group would you provide this course for?

2. During the 4<sup>th</sup> session, we will virtually break up the audience into national groups, where you can proceed with the work with your colleagues from the same institution.
  - a. Discuss your individual localization plan
  - b. Discuss organizational and national policies affecting the implementation
  - c. Discuss feedback from the national survey:
