

C2 Short-term staff training

Guidelines for individual work

27th October (Tuesday)

11:30–12:30	2 nd session (asynchronous) Individual learning – participants familiarise themselves with the course content
-------------	---

27th October (Tuesday)

15:30 - 17:00	Individual asynchronous learning: DUCK course material
---------------	---

1. Please, login to <http://lms.dataunderstanding.eu/login/index.php> with the username and password provided to you earlier
2. From the Courses you are enrolled, choose the DUCK course:
<http://lms.dataunderstanding.eu/course/view.php?id=4>
3. As you are now familiar with, the course has 3 modules. Please go over the modules and the self-assessment quizzes:
 - Module 1: Problem Analysis
 - Module 2: Data Analysis
 - Module 3: Data Communication
4. For every skill, there is an Example: in this stage, you do not have to deal with that, we will get back to it.
5. On Thursday, 29 October we will have an interactive session about the course material. Please, make feedback notes for the development team.
6. On Friday, 30 October one of the main topic of the course will be localization and sustainability of the course: it will help the discussion if you make notes regarding your ideas from this initial reading of the course material.

Questions:

1. Do you think the course material offers a comprehensive beginners level introduction to Data Understanding and Communication?
2. Is the course structured in a manner that help the learner understand the underlying concepts?
3. Is there any information that you would find necessary to be covered in the course?
4. Do the units, the examples and the self-assessment quizzes complement each other?
5. The course material is tailored to accommodate a wide variety of HE, VET and adult learners. Do you think it reaches this goal?
